

ASSESSING MATH CONCEPTS (AMC) GRADE LEVEL COURSE

Grades K, 1 and 2

Three-day courses

Who Should Attend

Kindergarten Course: Kindergarten Classroom Teachers, Math Coaches, Math Coordinators, Teacher Leaders

First Grade Course: First Grade Classroom Teachers, Math Coaches, Math Coordinators, Teacher Leaders

Second Grade Course: Second Grade Classroom Teachers, Math Coaches, Math Coordinators, Teacher Leaders

Course Description

Assessing Math Concepts (AMC) are K, 1 and 2 formative math assessments that truly uncover students' knowledge of key math concepts. The nine assessments go beyond "getting right answers" to reveal students' true understanding. Kathy Richardson has identified the "Critical Learning Phases" that students move through as they develop an understanding of the foundational mathematical ideas they need to know. AMC follows the stages of students' growth through these phases as they learn the core concepts for numbers up to 100. AMC determine the level of thinking each student has reached and informs the teachers instruction so each student is working at the most appropriate level for maximum understanding. These courses help teachers use the AMC assessments appropriate to their grade level, to identify the instructional needs of their students. They also learn to use the information gained from the assessments to focus their instruction using the Developing Number Concepts series.

Course Materials

Kindergarten Course –

Developing Number Concepts Book (DNC) 1
Assessing Math Concepts 2012 Edition

First Grade Course –

DNC Book 1: Counting, Comparing and Pattern
DNC Book 2: Addition and Subtraction
DNC Book 3: Place Value, Multiplication and Division
Assessing Math Concepts 2012 Edition

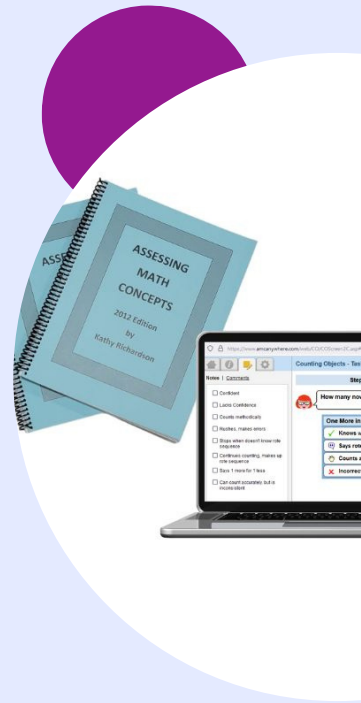

Second Grade Course –

DNC Book 2: Addition and Subtraction
DNC Book 3: Place Value, Multiplication and Division
Assessing Math Concepts 2012 Edition

All books by Kathy Richardson

The cost of the texts for the course is not included in the registration fee. Participants must purchase these texts and bring them to the course.
