

NUMBER TALKS

Grades 3-5

Two-day course

Who Should Attend

Classroom Teachers, Math Coaches, Math Coordinators,
Teacher Leaders

Course Description

During this two-day course, teachers learn to help students acquire competence in computation using visual models and number relationships to build number sense and to develop numerically powerful strategies that make sense to students. Students work with numbers using strategies that are simple, yet meaningful and powerful. Teachers see these methods modeled as they observe children solving problems during Number Talks. Course time is also devoted to helping teachers strengthen their own understanding of mathematics.

Course Materials

3-5 Grade Teachers –
Getting Started with Number Talks by Kathy Richardson

The cost of the texts for the course is not included in the registration fee. Participants must purchase these texts and bring them to the course.
