

# TEACHING FOR UNDERSTANDING

## Grades K-2

### Five-day course

### Who Should Attend

Classroom Teachers, Math Coaches, Math Coordinators,  
Teacher Leaders

### Course Description

This five-day course focuses on how to actively engage students in mathematics in ways that take them beyond procedures to deep understanding of basic math concepts. Attention is given to creating a learning environment that allows teachers to identify the instructional needs of individual children and to meet the range of needs in their classrooms. Course time is also devoted to helping teachers develop their own understanding and knowledge of the key mathematical concepts they teach.

### Course Materials

**K-2 and 3-5 Grade Teachers –**  
Developing Number Concepts Series by Kathy Richardson

The cost of the texts for the course is not included in the registration fee. Participants must purchase these texts and bring them to the course.
