## Join us for the Math Perspectives Summer Math Institute for Educators of K-2 Mathematics

July 15-19, 2019

### Who Should Attend:

Classroom Teachers,  
Administrators, Coaches,  
Interventionists, and other  
administrators of K-2  
mathematics.

### When:

July 15-19, 2019

### Hours:

9:30am to 4:30pm - Monday  
8:30am to 4:30pm - Tu-Thurs  
9:00am to 3:00pm - Friday

### Where:

Hyatt Place Charlotte  
Downtown  
222 S. Caldwell Street  
Charlotte, NC 28202  
Ph: 704-227-0500

### Registration Fees:

#### **Individual Registration**

\$575.00 per person

#### **Group Registration**

\$550.00 per person

### Early Registration Discount:

\$50 discount per registration  
if paid by check or credit card  
no later than June 5, 2019.

**Please join us** for Math Perspectives Summer Math Institute in Charlotte, NC, July 15-19, 2019. This year's institute will provide opportunities for educators of K-2 mathematics to deepen their knowledge about teaching and learning in a setting where participants have the opportunity to think deeply and dialogue with Kathy Richardson, one of the country's most highly respected elementary math educators and authors. Kathy will be joined by two of her colleagues, Dr. Jean Church and Dr. Kay Middleton.

**The Institute** is designed to assist teachers and administrators of K-2 mathematics:

- Build a knowledge base of the key mathematical ideas underlying beginning number concepts and the Critical Learning Phases necessary for children to think with numbers and use numbers to solve problems.
- Learn to differentiate instruction that ensures all students are working and learning to the edge of their understanding.
- Use formative assessment that identify and analyze student understanding.
- Use assessment data to consider what instruction will most effectively meet the needs of students.
- Build their own mathematical understandings and develop new ideas about how students learn mathematics.
- Use Number Talks to develop computational fluency.
- Network with other participants from across the country.

**Participants will receive** a complimentary copy of *How Children Learn Number Concepts: A Guide to the Critical Learning Phases* by Kathy Richardson.

### Application Process

Complete the Participant Application Form and Submit with payment for the registration fee (Check, Credit Card, or School Purchase Order).
